Ahmed Kholief

Front-End Developer

Alexandria, Egypt # ahmedkholief143@gmail.com „ +20 127 198 9421 ð LinkedIn § GitHub ï Portfolio

Summary

A passionate Front-End Developer specialized in React and Next.js, focused on building modern, responsive web applications. Proficient in JavaScript (ES6+), TypeScript, and styling with TailwindCSS for clean and scalable UI design. Experienced in integrating REST APIs to deliver dynamic and data-driven user experiences. Motivated to contribute to innovative projects while continuously enhancing my front-end expertise.

Experience

Frontend Developer (React)

Company : Mantaray Digital Solutions | Cairo **(Sep 2025 – Present)**

- Developed and maintained responsive web and mobile applications using **React.js/Next.js**
- Designed and integrated **RESTful APIs** to deliver dynamic and interactive user experiences
- Collaborated with backend developers and designers to deliver full end-to-end software solutions.
- Converted UI/UX designs from **Figma** into clean, reusable components with high accuracy.
- Optimized performance and fixed UI bugs to improve user experience across different screen sizes.
- Applied best practices in **clean code, performance optimization, and state management** (Redux/Context API)

Front-End Developer and Cross platform (React & React Native) | **ITI** (Information Technology Institute) **(Jul 2025 – Dec 2025)**

- Developed and maintained responsive web and mobile applications using **React.js** and **React Native**
- Designed and integrated **RESTful APIs** to deliver dynamic and interactive user experiences
- Built modern, reusable, and scalable UI components with **TailwindCSS**
- Learned Dart programming language as part of Flutter cross-platform mobile development track.
- Applied best practices in **clean code, performance optimization, and state management** (Redux/Context API)

Front-End Developer | Route Academy **(Feb 2025 – Aug 2025)**

- Built interactive single-page applications (SPAs) using **React.js** with modern hooks and lifecycle methods
- Enhanced user experience by implementing **client-side routing** with **Next.js** and React Router
- Developed server-side rendered (SSR) and static web applications using **Next.js** for better performance and SEO
- Integrated external APIs and applied **error handling & data fetching** techniques with Axios and Fetch API

Education

Bachelor of Civil Engineering Oct 2020 – Jun 2025

- Alexandria University, Faculty of Engineering
- GPA: Good (Very Good equivalent)
- Graduation Project: Civil Survey – Grade: A+

Core Technical Skills

FrontEnd Development

- JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Redux, Context API, React Router, RESTful APIs (Axios & Fetch)
- **TailwindCSS, Bootstrap, Responsive Design, HTML5, CSS3**

- Patterns & Best Practices

- Component-Based Architecture, Reusable Components, State Management (Redux, Context API), Clean Code,
  - Performance Optimization, Responsive Design

API Development & Testing

- Restful APIs, Web API, JWT Authentication, Postman, Swagger/Open API **Additional Technologies**
- Git, GitHub, Visual Studio, Visual Studio Code.

Projects

- **E-Commerce Platform (React.js)** **Demo**

Technologies: React.js, Context API, React Router, Axios & Yup (for forms/validation), **GitHub**

[2] react-toastify (for notifications), react-loader-spinner (for loading indicators), Responsive CSS framework (e.g. TailwindCSS)

- **SPYLT Milk (React.js - GSAP)** Demo

Technologies: React.js, GSAP (animations & ScrollTrigger), Context API, React Router, GitHub
Axios & Yup (forms & validation), react-toastify (notifications), react-loader-spinner (loading indicators), Responsive design with TailwindCSS, GitHub for version control.
