

Ahmed Kholief

Front-End Developer · React & Next.js Specialist

Alexandria, Egypt · ahmedkholief143@gmail.com · +20 127 198 9421 · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Front-End Developer with 3+ year of professional experience shipping production-grade web and mobile applications across more than 30 client projects. Specialised in React.js and Next.js with strong command of TypeScript, TailwindCSS, and RESTful API integration. Self-driven career-switcher who transitioned from Civil Engineering through intensive hands-on training and real-world delivery — demonstrating fast learning, discipline, and genuine commitment to the craft. Experienced in building bilingual Arabic/English platforms with full RTL support. Actively integrates AI-assisted development tools (Claude, GitHub Copilot) to accelerate delivery, improve code quality, and build complete products faster — including AI-powered SaaS applications. Targeting Front-End / Full-Stack roles in Egypt or the Gulf.

EXPERIENCE

Frontend Developer (React / Next.js)

Mantaray Digital Solutions · Egypt & UAE · Aug 2025 – Present

- Delivered **30+ client web and mobile applications** using React.js and Next.js, spanning SaaS platforms, e-commerce, dashboards, and booking systems.
- Designed and integrated RESTful APIs to power dynamic, data-driven user experiences across all products.
- Converted Figma designs into pixel-accurate, reusable component libraries — consistently praised by clients for UI fidelity.
- Optimised application performance through code splitting, lazy loading, and image optimisation; improved Lighthouse scores across multiple projects.
- Integrated AI-assisted development (Claude, Copilot) into daily workflow to accelerate scaffolding, debugging, and feature iteration — reducing development time significantly on complex projects.
- Applied Redux and Context API for scalable state management across large multi-page applications.

Front-End Developer — Cross-Platform Track (React & React Native)

ITI — Information Technology Institute · Jul 2025 – Dec 2025 (concurrent training programme)

- Completed an intensive cross-platform development track focused on React.js, React Native, and Flutter/Dart.
- Built and deployed responsive web and mobile applications with TailwindCSS component systems.
- Applied Redux and Context API for state management; integrated RESTful APIs across all track projects.

Front-End Developer

Route Academy · Feb 2025 – Aug 2025

- Built interactive SPAs using React.js with modern hooks, lifecycle methods, and client-side routing via React Router.
- Developed SSR and static web apps with Next.js for improved performance and SEO.
- Integrated external APIs using Axios and Fetch API with robust error handling and loading state management.

SELECTED PROJECTS

[Studiio](#) · [GitHub](#)

Next.js, React, Convex, TailwindCSS, next-intl, PostHog

Full SaaS platform for gym and fitness studio management. Handles class templates, scheduling, customer CRM, staff roles, payments, and multi-branch operations with bilingual Arabic/English support. Currently live with 10 paying clients.

[MediFlow Admin Dashboard](#) · [GitHub](#)

Next.js, React, next-intl, TailwindCSS, IBM Plex Sans Arabic, RTL Support

Comprehensive admin dashboard for clinic management — appointments, patients, doctors, queue, billing, and analytics. Full bilingual English/Arabic interface with complete RTL layout support.

[Fresh Cart — E-Commerce Platform](#) · [GitHub](#)

React.js, Context API, React Router, Axios, Yup, react-toastify, TailwindCSS

Full-featured single-page e-commerce application with product browsing, cart management, authentication, form validation, API integration, and a notification system.

[SPYLT CAN — Animated Brand](#) · [GitHub](#)

HTML5, CSS3, JavaScript, GSAP

High-fidelity animated landing page inspired by the Awwwards Site of the Day winning design for SPYLT, a premium milk brand. Features advanced GSAP scroll-based animations, smooth transitions, interactive UI elements, and a fully responsive layout — demonstrating strong command of motion design and creative front-end development.

[MediFlow Patient Portal](#) · [GitHub](#)

Next.js, React, next-intl, TailwindCSS, IBM Plex Sans Arabic, RTL Support

Patient-facing portal for viewing appointments, medical history, and managing bookings. Features a bilingual English/Arabic interface with seamless RTL support.

[MediFlow Booking Interface](#) · [GitHub](#)

Next.js, React, next-intl, TailwindCSS, IBM Plex Sans Arabic, RTL Support

Public-facing appointment booking interface for the MediFlow clinic system. Supports bilingual English/Arabic with smooth scheduling flow and RTL layout.

TECHNICAL SKILLS

Core Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Native, Redux, Context API, React Router, Axios, Fetch API

Styling & Animation: TailwindCSS, Bootstrap, GSAP, Responsive Design, RTL / Bilingual UI (Arabic/English)

Backend & APIs: RESTful APIs, JWT Authentication, SSR, SSG, Convex

Testing & Tooling: Postman, Swagger/OpenAPI, Git, GitHub, VS Code, Visual Studio

AI-Augmented Development: Claude (Anthropic), GitHub Copilot — used daily for scaffolding, debugging, code review, and building complete AI-powered SaaS products

Patterns & Architecture: Component-Based Architecture, Reusable Components, Performance Optimisation, Clean Code, State Management

EDUCATION

Bachelor of Civil Engineering

Alexandria University, Faculty of Engineering · Oct 2020 – Jun 2025

• GPA: Good — Graduation Project (Civil Survey): **A+**
